Subject: Recap of WI CAFO transfer discussion today.

Categories: Record Saved - Shared, Record Saved

Julianne- Can you please forward the electronic files for the documents you provided to us (checklists, MOA template, guidance docs, etc.) so that we can share them with WDNR? Please include any appropriate disclaimers you think are necessary. WDNR is on an accelerated timeline to get statutory changes to their legislature (by December) and is interested in providing us the completed legal authority checklist in the next couple of weeks (they have started their own version already but would work through ours as well) and then meet 4-6 weeks after that with the EPA team for initial feedback on their proposal to transfer NPDES authority for CAFO permits and enforcement to DATCP (not stormwater). They are also interested in us point to them specifically where we outline the section on funding and staffing plan that must be submitted to us as part of the submission so that they can be thinking about this part of the process for internal state discussions. Also, they were interested if we could point them to good examples of other state submissions and our approval.

Your help to get this to Mark and I would be great. Likely-although we are still discussing this- we will have Mark lead on this first part with close coordination with you as the timeline for this and the Ohio transfer are overlapping. But, we will certainly chat more on this!

Candice
